## WELCOME TO THE LEADERSHIP CIRCLE

A SPECIAL GROUP OF LEADERS COMMITTED TO HELPING PEOPLE WITH CYSTIC FIBROSIS LIVE LONGER, HEALTHIER LIVES.

Sarah (centre) and her parents, Quebec

**Cystic Fibrosis Canada’s Leadership Circle celebrates an extraordinary community of philanthropic leaders who are impacting the lives of thousands of Canadians living with cystic fibrosis.**

As a member of The Leadership Circle, you are helping us to lead the way in cystic fibrosis. In fact, thanks to your support, we are able to push further in our mission to end cystic fibrosis by:

- **Accessing critical medicines**
- **Advocating for high-quality individualized care**
- **Fueling innovative research**
- **Ensuring information and support are available**
- **Lengthening and improving lives**

Thank you for joining The Leadership Circle and going further for all Canadians affected by cystic fibrosis. Your vital leadership is incredibly valued and will help change the cystic fibrosis story.

“Your leadership gift allows us to create real change for those living with cystic fibrosis. Whether it is advocating for access to life-changing medicines, advancing clinical treatment and care, leading breakthrough research or improving health outcomes for those living with CF — you are helping transform lives.

Thanks to your generosity, we will go further, until all people living with cystic fibrosis can and do experience everything life has to offer — and enjoy everything life has to offer.”

Kelly Grover,  
President and CEO

As part of a unique community of donors pushing further to drive change, members of The Leadership Circle have already helped to:

- **Fund Canadian scientists who mapped the cystic fibrosis gene.**
- **Extend the lifespan of children diagnosed with cystic fibrosis.**
- **Contribute to the discovery of the newest life-changing medications.**

Thank you for your life-changing support as a member of The Leadership Circle. Your generosity is paving the way for advancements that will improve the lives of people affected by cystic fibrosis.
